- Energy efficient
- OPS slot

Applications

- Retail
- Hospitality
- Corporate
- Education

X5550D-U2
X5580I-U2

TouchSystems' X55 is designed for 24/7 operation and is meant to attract attention in high-traffic spaces through its slim bezel, sleek design, and bright screen. The full HD LCD display is complemented by the LED BLU, a component that lowers energy consumption and costs. The display features a standard Open Pluggable Specification (OPS) slot that results in easier installations and maintenance. The X55 can be integrated with either Dispersive Signal Technology (DST), a single-touch technology, or infra red, a multi-touch technology. The infra red display is **Windows 8 ready**. For more information, call the TouchSystems sales team at (512) 846-2424.

Specifications

Viewable Image Size	55"
Touch Technology	Dispersive Signal Technology or Infra Red
